Percussion, like any other instrument, will require practice at home. Consistent daily practice for a small amount of time (about 10 minutes per day at the beginning of the year, increasing to 20-30 minutes per day by the end of the year) will ensure that students meet both their individual goals and the goals the teacher has for the class.

Please **DO NOT** play on your instrument until we all learn how to use these things together at school. Muscles learn habits and we want to make sure your muscles learn good ones! We ask that all band students bring their black band binder and band book (Simple Steps...) with them on the first day of school.

Please don't hesitate to call or e-mail the band office if you have any questions or concerns about the band program. We look forward to working with you next year!
